

HAND PALLET TRUCK

Economic and effortless solution for loading and unloading heavy goods. The ideal storage aid and handling partner for all manual transport tasks over short distance. Integral casting oil pump, original imported seal. Whole valve core. Strong & durable. Integrated process & automatic welding which increased the strength to 25% to ensure the normal use of deformation of the lower fork lever. The rotating parts are assembled with an alloy lining which can absorb partial load, wear resistance and prolong service life.

FEATURES

- Easy to maneuver with 210° turning radius.
- All pivot points are greased to ensure excellent maneuverability with effortless steering.
- Speed lowering valve can adjust the descent speed freely.
- Foot and hand control the lowering function to ensure easy operation.
- Excellent and compact design pump with high pressure relief valve to prevent overload.
